The assessment of the materiality of each risk factor is illustrated with a rating of low, medium or high. The description of the risk factors below is based on information available and estimates made on the date of this Prospectus.*

*The risk factors are presented in categories where the most material risk factors in a category are presented first under that category. Subsequent risk factors in the same category are not ranked in order of materiality or probability of occurrence. ### **1.1 Risks relating to the Group**

#### ***1.1.1 Risk relating to the macroeconomic environment***

The Group's business is subject to inherent risks arising from general and sector-specific economic conditions. A deterioration in economic conditions globally and in the markets in which the Group operates, including, but not limited to business and consumer confidence, unemployment, household disposable income, the state of the housing market, consumer travel patterns, foreign exchange markets, counter-party risk, inflation, the availability and cost of credit, the liquidity of global financial markets, market share prices, or market interest rates may reduce the level of demand for the products and services of the Group. This may adversely affect the earnings the Group can achieve on its products and lead to reduced revenue and increased levels of impairment charges. The aforementioned factors may materially and adversely impact the Issuer's operating results, financial condition and prospects.

The exact nature of the risks faced by the Issuer in relation to the macroeconomic environment is difficult to predict and guard against in view of the fact that many of the related risks to the business are totally, or in part, outside the control of the Issuer.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

#### ***1.1.2 The Group has existing business operations in Russia***

Russia invaded Ukraine in 2022 and the war is still on-going as per the date of this Prospectus. Given that the Group has operations in Russia (comprising of acquisitions of non-performing loan portfolios and collection services, which employs several hundreds of employees), the most significant risk in respect thereof is restrictions on transfer of cash from the Russian business and restrictions with respect to divestments of such business. Further, the Group relies, among other things, on its brand to maintain and attract new customers, partners and employees as further described below under risk factor "Negative publicity". Any negative publicity or announcement relating to the Group's

operations in Russia may, whether or not it is justifiable, deteriorate the brand value and have a negative effect on the inflow of deposits, net sales, earnings and financial position of the Group.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be high.

### **1.1.3 Risk Management**

Operating within the banking sector and offering financial products and services involves taking calculated risks. The risks related to these products and services are taken deliberately and shall be reflected in, and covered by, the prices offered to the customers. Significant risks that the Issuer is exposed to are credit and counterparty risk, market risk, strategic risk, risks relating to disruptions in the global credit markets and economy, liquidity risk, operational risk, regulatory risk and competition and business risks, as set out below. Any failure by the Group to implement appropriate systems and controls to mitigate such risks could adversely affect the Issuer's operating results, financial condition and prospects.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be high.

### **1.1.4 Regulatory risk**

The Issuer's operations are subject to legislation, regulations, codes of conduct and government policies in the jurisdictions in which it conducts business and in relation to the products it markets and sells. Regulatory authorities have broad jurisdiction over many aspects of the Issuer's business, marketing and selling practices, advertising and terms of business. In the aftermath of the global financial crisis, many initiatives for regulatory changes have been taken and the impact of such initiatives is still difficult to predict in full. Thus, financial services laws, marketing laws (including restrictions on the marketing of consumer loans and co-operations with external parties, e.g. loan brokers), laws on enforcement and seizure (including changes to legislation on wage garnish or other measures to recover defaulted loans), regulations, codes of conduct, government policies and/or their respective interpretations currently affecting the Issuer may change and it cannot predict future initiatives or changes.

There is a risk that the Issuer's financial performance will be adversely affected should unforeseen events relating to regulatory risk arise in the future, which may materially and adversely affect, amongst other things, the Issuer's product range and activities, the sales and pricing of its products, the Issuer's profitability, solvency and capital requirements and may give rise to increased costs of compliance.

The Issuer's business is heavily regulated and is supervised by the Swedish FSA (Sw. *Finansinspektionen*). Although the Issuer has a risk and compliance function in place, there is a risk that the Issuer will not be in compliance with all relevant regulation at all times. Should the Swedish FSA consider that the operations of the Issuer are not sound or that the Issuer is otherwise in breach of laws or regulations that apply to it, the Swedish FSA may impose administrative sanctions on the Issuer, such as disciplinary reprimands, warnings, fines and order to take remedial action. The Swedish FSA may also revoke the Issuer's licence to engage in financing business. For example, a revocation of the Issuer's licence as a credit institution would require the Issuer to enter into liquidation if no exemption is granted; such scenario would materially affect the Issuer's ability to

repay the Bonds. In addition, the Group is to some extent dependent on deposits from private persons which rely on the state-provided guarantee of deposits, also known as the deposit insurance (Sw. *insättningsgaranti*). If the regulations relating to deposits insurance were to change with the effect that the customers of the Group would not be covered by the deposit insurance, it could have a material negative effect on the Issuers operating results, financial condition and prospects and thus also Issuer's ability to repay the Bonds.

Further, the Issuer has received a sanction from the Swedish FSA due to deficiencies in the credit processes for consumers of unsecured personal loans, consisting of a remark (Sw. *anmärkning*) and an administrative fee of SEK 45,000,000. The decision has been appealed to the administrative court of Stockholm (Sw. *Förvaltningsrätten i Stockholm*).

Should the administrative court reject the appeal, this will result in that the Issuer has to pay the penalty fee of SEK 45,000,000 (unless the Issuer chooses to appeal such decision) which may also result in reputational damage.

Furthermore, the Issuer has been prohibited by the Swedish Consumer Agency (Sw. *Konsumentverket*) to include penalty fees for delays on invoices from the Issuer to consumers, which has been made subject to a conditional fine (Sw. *vite*) which would become payable if the Issuer is to breach the prohibition, a decision which was established by the Patent and Market Court (Sw. *Patent- och markandsdomstolen*) through judgment. The Issuer has appealed the judgment to the Patent and Market Court of Appeal (Sw. *Patent- och marknadsöverdomstolen*).

In addition, the Issuer's subsidiary MoneyGo received a warning, together with a penalty fee of SEK 10,000,000, by the Swedish Consumer Agency, due to lack of compliance relating to its routines for credit assessment of its customers. The decision has been appealed to the Patent and Market Court.

It shall also be noted that an increased cost pressure with respect to legal and regulatory compliance may affect the Issuer's earnings and financial position. If any of the above sanctions materialise following the appeal-processes or if any new sanctions are imposed, it may have a negative effect on the Issuer's business, financial position and results.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

### **1.1.5 Regulatory capital requirements**

On 16 December 2010, the Basel Committee on Banking Supervision (the "**Basel Committee**") published its final guidelines for new capital and liquidity requirements intended to reinforce capital standards and to establish minimum liquidity standards for credit institutions and on 13 January 2011, it published the minimum requirements for regulatory capital to ensure loss absorbency at the point of non-viability (the "**Basel III Framework**"). The aim of the framework is to improve the ability of credit institutions to absorb shocks arising from financial and economic stress, improve risk management and governance and strengthen credit institutions' transparency and disclosures. The framework raises both the quality and quantity of the capital base and increases capital requirements for certain positions. The framework also introduces buffer requirements in the form of both a capital conservation buffer, a countercyclical capital buffer and additional capital buffers for systemic importance, which may be on a global, European or domestic basis. The regulatory framework will continue to evolve, and any changes could have a material impact on the Issuer's business.

Following the Basel III Framework, the European Commission published on 20 July 2011 the corresponding proposed changes at the EU level in the form of (i) a directly applicable European Parliament and Council Regulation establishing the prudential requirements for credit institutions and investment firms (known as the Capital Requirements Regulation or “**CRR**” (Regulation (EU) No 575/2013), as amended by e.g. Regulation (EU) 2019/876 (“**CRR II**”)) and (ii) a European Council Directive governing access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms (known as “**CRD IV**” (Directive 2013/36/EU, as amended by e.g. Directive (EU) 2019/878 (“**CRD V**”))). Recent changes include the introduction of a so-called Pillar 2-guidance (“**P2G**”) which is determined as part of the Supervisory Review and Evaluation Process (“**SREP**”) and is a bank-specific recommendation. The P2G is a non-binding supervisory recommendation and a violation of the P2G does not automatically lead to consequences such as restrictions in dividends. If the P2G is breached the Swedish FSA has the possibility to intensify its supervision or decide on a binding Pillar 2 requirement. CRR II and CRD V are both supported by a set of binding technical standards developed by the European Banking Authority (the “**EBA**”). The EU regulatory framework is broadly in line with the Basel III Framework regarding capital and liquidity standards, and implementation of all relevant rules are being phased in gradually.

Furthermore, the conditions of the Issuer’s business as well as external conditions are constantly changing. For the foregoing reasons, the Issuer and/or its consolidated situation may be required to raise additional regulatory capital (including e.g. following future SREP for the Issuer and the associated P2G as determined by the SFSA in connection therewith) and such changes could result in the Issuer’s and/or its consolidated situation’s existing regulatory capital ceasing to count either at the same level as present or at all. Any failure by the Issuer and/or its consolidated situation to maintain any increased regulatory capital requirements or to comply with any other requirements introduced by regulators could result in intervention by regulators or the imposition of sanctions, which may have a material adverse effect on the Issuer’s profitability and results and may also have other effects on the Issuer’s financial performance and on the pricing of the Bonds, both with or without the intervention by regulators or the imposition of sanctions. Any market perception or concern regarding compliance with future capital adequacy requirements, could increase the Issuer’s and the Group’s borrowing costs and limit its access to capital markets, which could have a material adverse effect on results of operations, financial condition and liquidity.

The Company considers that the probability that the abovementioned risks materialise to medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

#### **1.1.6 The Bank Recovery and Resolution Directive**

The EU Directive 2014/59/EU, known as the Bank Recovery and Resolution Directive (“**BRRD**”), as amended by Directive (EU) 2019/879 (“**BRRD II**”) supplements the CRR II and CRD V legislative package. The BRRD was implemented in Sweden mainly by way of the new Swedish Resolution Act (Sw. *lag (2015:1016) om resolution*) which entered into force on 1 February 2016. The purpose of the BRRD legislative package is to harmonise national rules on bank recovery and resolution, providing authorities, including the Swedish FSA, with common tools and powers to address banking crises proactively in order to safeguard financial stability and minimise taxpayers’ exposure to losses.

National resolution authorities (the National Debt Office (Sw. *Riksgälden*) for Sweden), in consultation with competent authorities, are required to prepare resolution plans setting out how a firm might be resolved in an orderly fashion and its essential functions preserved, if it were to fail.

This includes the potential application of resolution tools and powers, as well as options for ensuring the continuity of critical functions. The resolution tools and powers referred to above which may be used, alone or in combination, include the following: (i) a sale of business tool - which enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms; (ii) a bridge institution tool - which enables resolution authorities to transfer all or part of the business of the firm to a “bridge institution” (an entity created for this purpose that is wholly or partially in public control); (iii) an asset separation tool - which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down; and (iv) a general bail-in tool - which gives resolution authorities the power to write-down all or a portion of the principal amount of, or interest on, certain other eligible liabilities (which could include the Bonds), whether subordinated or unsubordinated, of a financial institution in resolution and/or to convert certain unsecured debt claims (which could also include the Bonds) into another security, including common equity tier 1 instruments of the surviving entity, which equity could also be subject to any further application of the general bail-in tool. The Member State may also as a last resort provide extraordinary public financial support through public equity support and temporary public ownership tools. Moreover, in addition to the general bail-in tool, the BRRD legislative package provides for relevant authorities to have the further power, before any other resolution action is taken, to permanently write-down or convert into equity relevant capital instruments such as the Bonds at the point of non-viability (see the risk factor “Loss absorption and write down” below for further information).

The powers set out in the BRRD will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors. Holders of debt instruments (such as the Bonds) may be subject to write-down or conversion into equity on any application of the general bail-in tool and non-viability loss absorption, which may result in such holders losing some or all of their investment. However, as the Issuer has not been deemed to constitute a systemically important institution by the National Debt Office at the date of this Prospectus, the Issuer would currently not, as a main rule, be subject to resolution, and subsequently not of the resolution tools and powers, in the event of financial difficulties of the Issuer.

Furthermore, to ensure that banks always have sufficient loss- absorbing and recapitalisation capacity, the BRRD requires firms to maintain at all times a sufficient aggregate amount of own funds (as defined in Article 4(1)(118) of the CRR) and eligible liabilities (as defined in Article 2(1)(71a) of the BRRD namely, liabilities that may be bailed-in using the bail-in tool). This is known as the minimum requirement for own funds and eligible liabilities or MREL. The minimum requirement is calculated as the amount of own funds and eligible liabilities expressed as a percentage of the total risk exposure amount calculated in accordance with Article 92(3) of the CRR and the total exposure measure calculated in accordance with Articles 429 and 429a of the CRR. In accordance with the decision of MREL-levels for the year beginning 1 January 2022 by the National Debt Office, the MREL of the Issuer does not currently exceed the capital requirements required by CRR II and CRD V.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be low.

### **1.1.7 Credit and counterparty risk**

Credit risk is the failure of any customer or counterparty to fulfil its payment obligations to the Issuer. Credit risk is primarily attributable to lending/financing to customers, while a counterparty risk arises when the Issuer's performance is other than pure lending/financing. In financial management, credit risk consists primarily of the Issuer's counterparties being unable to meet their obligations towards the Issuer, for instance in connection with financial derivatives in the form of outstanding positive market value, which depends on market factors.

Inflation levels have been high during 2022 and the start of 2023 and are anticipated to remain high. This can, in the long term, affect the customer's ability to repay loans, and thus affect the credit losses of the Group.

Adverse changes in the credit quality of the Issuer's customers or other counterparties could affect the recovery and value of the Issuer's assets and require an increase in provisions made for bad and doubtful debts and other provisions and could consequently adversely affect the Issuer's earnings and financial position.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

### **1.1.8 Market risk**

Market risk is the risk of loss resulting from changes in interest and foreign exchange rates and equity prices or other market related instruments. The Issuer has a part of its excess liquidity in listed equities and fluctuations in the equity market could therefore have an adverse effect on the issuers result. Fluctuations in the debt, foreign exchange or equity markets may affect the market value and liquidity of the Issuer's assets. In addition, the occurrence of such events may have an adverse impact on the revenue generated from the Issuer's primary activities.

The Issuer estimates that the impact on the equity position of the Group, with a 10 per cent. increase/decrease in valuation of the Group's equities and shares, amounts to +/- SEK 413,178,000, based on the Group's holdings as of 31 December 2022.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

### **1.1.9 Interest rate risk**

Interest rate risk is the risk that the Issuer's current and future net interest deteriorates due to an unfavourable change in the market. Interest rate risk arises when the interest rates cannot be changed simultaneously on the funding and lending sides. A deterioration of the Issuer's net interest due to an unfavourable and significant change in the Issuer's funding costs (which is not a result of a change in the market rates) could have a material adverse effect on the Issuer's financial position and results of operations.

The Issuer estimates that the impact on the net interest income of the Group over the next twelve-month period, with a rise/fall in interest rates by 1 percentage point, amounts to +/- SEK 20,880,000, based on all interest-bearing assets and liabilities as of 31 December 2022.

The Company considers that the probability that the abovementioned risks materialise to be high. If the risks would materialise, the Company considers the potential negative impact to be low.

#### **1.1.10 Currency risk**

Currency risk is the risk that the Issuer will suffer losses due to adverse currency movements. Foreign exchange rate risk also involves the risk that the estimated fair value of, or future cash flows from, a financial instrument fluctuate because of changes in foreign exchange rates. The Issuer is exposed to foreign exchange rate risk mainly from Euro (EUR), U.S. dollar (USD), Norwegian Krone (NOK) and Danish Krone (DKK). The Issuer is to some extent exposed to Russian Ruble (RUB), which historically have exhibited a more volatile behaviour than the aforementioned currencies. As a result of the on-going war in Ukraine, the volatility of RUB has materially increased. The Issuer has therefore set aside SEK 387,000,000 as of 31 December 2022 in respect of the pillar 2 capital adequacy requirement, regarding the currency risk related to RUB.

Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations. This means that the Issuer is exposed to exchange differences. Adverse exchange rate movements could have a material adverse effect on the Issuer's financial position and results of operations.

The Company considers that the probability that the abovementioned risks materialise to be high. If the risks would materialise, the Company considers the potential negative impact to be medium.

#### **1.1.11 Risks related to money-laundering**

Although the Issuer works proactively to prevent itself from being utilized for money laundering purposes, there is a risk that the Issuer and/or the Group fails to protect its business against money laundering. If the Issuer is in breach of money laundering legislation, the Swedish FSA may impose administrative sanctions on the Issuer, including fines and revocation of credit market license, which could have a material adverse effect on the Issuer's business and reputation.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be high.

#### **1.1.12 Liquidity and funding risk**

Liquidity risk is the risk that the Issuer is unable to fulfil its commitments or is only able to fulfil its commitments by borrowing cash and cash equivalents at a significantly higher cost, due to insufficient cash and cash equivalents currently held.

The Issuer's lending to the public is financed to a not insignificant extent through deposits from the public, but also through its own operations, other credit institutions, the issuance of commercial papers and subordinated debts. The risks in the supply of liquidity consist primarily of the risk of the Issuer not attracting sufficient volume of deposits. The risk may arise in a situation where net withdrawals are larger than desired or when increased deposit volumes are desired in order to finance further lending and other payments. Increased net withdrawals may result from price competition or negative rumours about the Issuer, other banks or credit institutions or the financial system in general. A failure by the Issuer to attract a sufficient volume of deposits, improve the liquidity situation

through asset sales or borrowing funds at reasonable costs could have a material adverse effect on the Issuer's operations.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be high.

#### ***1.1.13 Dependency on loan brokers***

A considerable part of the Group's new customers are currently directed to it from external third-party sources, primarily loan brokers or providers of interest rate comparison services. The Group's agreements with the loan brokers may in most cases be terminated on short notice. Should such external parties, for any reason, cease to cooperate with the Group, it could substantially affect the inflow of new customers to the Issuer resulting in a material adverse effect on the Issuer's financial position and results of operations.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be medium.

#### ***1.1.14 Agreements with business partners***

The Issuer is dependent on certain agreements entered into with business partners within the framework of the Issuer's payment service Webpay. If the Issuer's business partners are unable to fulfil their obligations with respect to the Webpay payment service, the Issuer's operations, financial position and result may be adversely affected.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be low.

#### ***1.1.15 Operational risks***

Operational risk arises from human errors and system faults, insufficient or defective internal procedures or external events. Operational risk also includes risk pertaining to reputation and strategy as well as legal risk. Deficiencies or errors in internal processes and control routines, human errors, or external events that affect operations may occur. This could result in a material adverse effect on the Issuer's financial position, business, products and services it offers or its assets.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

#### ***1.1.16 Ownership***

The Issuer is currently controlled by one shareholder, whose interests may conflict with the Bondholders', particularly if the Issuer encounters difficulties or is unable to pay its debts as they fall due. The owner has the power to control all matters to be decided by vote at a shareholders' meeting and has the ability to appoint the board of directors of the Issuer. Furthermore, the owner may also have an interest in pursuing acquisitions, divestitures, financings or other transactions that, in its judgment, could enhance its equity investments, although such transactions might involve risks to the Bondholders. There is nothing in the Terms and Conditions that prevents the owner or any of its

affiliates from acquiring businesses that directly compete with the Issuer. If such event were to arise this may adversely affect the Issuer's operations, financial position and results.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be medium.

#### ***1.1.17 Corporate governance and internal control***

The Issuer is subject to the risk that executives may make decisions that are not consistent with the Group's strategies, internal guidelines and policy documents. Further, employees within the Group and other persons related to the Issuer, such as its partners, may perform acts that are considered unethical, are criminal (e.g. violation of applicable bribery and anti-corruption legislation) or otherwise contrary to applicable laws and regulations (e.g. non-compliance with applicable protection of personal data legislation) or the Issuer's internal guidelines and policy documents. If the Issuer's internal controls and other measures to ensure compliance with laws, regulations, internal guidelines and policy documents prove to be insufficient, the Issuer's reputation may be harmed or the Issuer may be affected by public law sanctions, including penalties or fines, which could negatively affect the Issuer's operations, financial position and earnings and in turn the performance of the Issuer under the Terms and Conditions.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

#### ***1.1.18 Dependency on key personnel***

The Issuer is dependent upon a number of key employees whom have together developed the efficient day-to-day operations and systems within the Group. Should such key personnel leave the Group in the future or take up employment with a competing business, and not be adequately replaced with new qualified personnel, it could have a negative effect on the Issuer's operations, earnings and financial position.

The Issuer's future success depends in part on its ability to hire, assimilate and retain highly qualified personnel, particularly the senior management team and key individuals. Competition for highly qualified management remains intense in the industries and regions in which the Issuer operates. If the Issuer is unable to attract and retain members of its senior management team, key employees or other qualified personnel, this could negatively affect the Issuer's operations, financial position and earnings and in turn the performance of the Issuer under the Terms and Conditions.

The Company considers that the probability that the abovementioned risks materialise to be high. If the risks would materialise, the Company considers the potential negative impact to be medium.

#### ***1.1.19 Risks relating to inadequate insurance***

There is a risk that the Issuer's insurance coverage will not fully cover future claims or damages. Claims and damages exceeding the Issuer's insurance coverage and the inability by the Issuer to maintain adequate insurance policies could have a material adverse effect on the Issuer's financial conditions and results of its operations.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be low.

#### **1.1.20 Taxes and charges**

The Issuer conducts its business in accordance with its interpretation of applicable tax regulations and applicable requirements and decisions. There is a risk that the Issuer's or its advisers' interpretation and application of laws, provisions and judicial practice has been, or will at some point be, incorrect or that such laws, provisions and practice will be changed, potentially with retroactive effect. Further, future interpretations or developments of tax regimes may affect the Issuer's tax liability, return on investments and business operations. If any such event should occur, the Issuer's tax liabilities can increase, which could have a negative effect on its earnings and financial position.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

#### **1.1.21 Negative publicity**

The Issuer relies, among other things, on its brand to maintain and attract new customers and employees. Any negative publicity or announcement relating to the Group may, whether or not it is justifiable, deteriorate the brand value and have a negative effect on the inflow of deposits, net sales, earnings and financial position which in turn may negatively affect the performance of the Issuer under the Terms and Conditions. This risk has further increased in light of the Company's operations in Russia following the invasion of Ukraine in 2022, as further described above under risk factor "Risks relating to the current macroeconomic environment".

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

#### **1.1.22 Legal disputes, claims and investigations**

Claims or legal actions may now or in the future be taken against the Issuer. The Issuer may also be subject to criminal investigations and regulatory investigations and actions relating to, for example, protection of personal data legislation. Disputes, claims, investigations and actions of these types may be time-consuming, disturb normal operations, involve large sums of money, have a negative impact on customer relationships and result in both administrative and legal sanctions and measures that entail significant expenses. The outcome of such proceedings may not correspond to the way the outcome is perceived by the market, and the Issuer's reputation may be impacted in a way which adversely affects its results of operations and financial position.

Future disputes, claims, injunctions, investigations and actions could result in costs for the Issuer which may have significant unfavourable effects on the Issuer's financial position, performance, market position and pricing of the Bonds.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

### ***1.1.23 Intellectual property rights***

The Issuer is active under a number of brands whereby Svea Bank is the main brand as well as a number of supporting brands such as Svea Billing, Svea Webpay and many more. Failure to protect these brands and supporting brands names and other intellectual property rights or prevent their unauthorised use by third parties could have a material adverse effect on the Issuer's business. In addition, the Issuer faces the risk of claims that it is infringing third parties' intellectual property rights. Any such claim, even if it is without merit, could be expensive and time-consuming, could cause the Issuer to cease market itself under a certain brand or redesign certain brands and could divert management time and attention. If any of the above risks were to materialize, it could have a material adverse effect on the Issuer's business, financial condition and results of operations.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be medium.

### ***1.1.24 Personal data security risks***

The General Data Protection Regulation (Regulation (EU) 2016/679) (the "**Regulation**") has been adopted at EU level and, as of 25 May 2018 has replaced the Swedish Personal Data Act (Sw. *personuppgiftslagen (1998:204)*). The Regulation contains stringent sanctions for failure to comply with the rules. Among other things, the supervisory authority is given the right to impose administrative fines of up to EUR 20 million, or four per cent. of the Group's annual global turnover, if the Group breaches certain rules. Any failure by the Group to comply with the Regulation would subject it to litigation, civil or criminal penalties and adverse publicity, which could affect the Groups operations, financial position and earnings.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

### ***1.1.25 Anticipated benefits of existing and potential future mergers, acquisitions, joint ventures or strategic alliances may not be realised***

The Issuer may, from time to time, acquire or divest businesses or interests in businesses, including non-controlling interests, or form joint ventures or create strategic alliances, for example the Issuer's acquisitions of 75 per cent. of the shares in the Swedish company MoneyGo AB and of 90 per cent. of the shares in the Finnish company Maksturva Group OY. Whether the Issuer realises the anticipated benefits from each transaction depends, in part, upon the integration between the businesses involved, the performance and development of the underlying products, capabilities or technologies, the Issuer's correct assessment of assumed liabilities and the management of the operations in question. Accordingly, the Issuer's financial results could be adversely affected by unanticipated performance and liability issues, transaction-related charges, amortisation related to intangibles, warranties, charges for impairment of long-term assets and partner performance, which could affect the performance of the Issuer under the Bonds.

The Issuer is constantly evaluating add-on acquisitions. There is a risk that some acquisitions do not develop as planned or benefit the Issuer's operations as anticipated prior to the acquisition. Dilution of a company's brand, lack of understanding of the target company's business and many other factors in connection with corporate acquisitions may prevent post integration-plans from being properly executed. If any of the above risks were to materialize, it could have a material adverse effect on the

Issuer's business, financial condition and results of operations and in turn the performance of the Issuer under the Terms and Conditions.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be low.

### **1.1.26 Investments**

All investments involve uncertainties which may lead to increased costs or decreased income for the Issuer.

A part of the Group's business is the acquisition of portfolios of non-performing loans. For example, in June 2018, the Issuer acquired a SEK 850,000,000 portfolio of non-performing loans in Norway, Finland and Denmark and in November 2020, the Issuer acquired a SEK 863,000,000 portfolio of unsecured personal loans from Bluestep Bank AB. There is a risk that the investments are not developing as planned, which especially applies to investments in portfolios of non-performing loans in eastern and central Europe due to currency effects. This may have an adverse impact on the Issuer's operations and financial condition. In addition, the Issuer operates in Sweden, Finland, Norway, Denmark, Estonia, Latvia, the Netherlands, Switzerland, Austria, Germany and large parts of Eastern Europe (including Ukraine and Russia) and the Issuer's portfolios may vary over time. Limited access to information or incorrect assessment of available information may lead to that attractive assets are disposed of whereas less attractive assets may be acquired or not be disposed of. This risk is particularly prevalent as the Issuer continually investigates opportunities to make new acquisitions and thus exposes itself to investment related risk. If attractive assets were to be disposed of or less attractive assets were to be acquired the market value of the portfolios of the Issuer could decrease which may have a negative effect on the Issuer's financial position and result.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

### **1.1.27 Risks relating to the Issuer being dependent on its subsidiaries**

The Issuer is the parent company in the Group and is to some extent dependent on its subsidiaries which are integrated in the Issuer's business. The Issuer's operations and earnings are affected by the results and operations of its subsidiaries. Failure in performance by the Issuer's subsidiaries and/or limitations or restrictions on the transfer of funds between companies within the Group may negatively affect the Group's operations, financial position and earnings and in turn the performance of the Issuer under the Bonds. Also, the Bonds are structurally subordinated to its subsidiaries' creditors. As a consequence thereof and given that the Issuer is to some extent dependent on its subsidiaries' results and operations, in the event of the Issuer's liquidation (Sw. *likvidation*) or bankruptcy (Sw. *konkurs*), each Bondholder's amount received will to some extent be affected by the subsidiaries' result and their rights, under existing financial arrangements, to transfer funds to the Issuer by way of e.g. dividends.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be low.

### **1.1.28 Risks relating to IT infrastructure**

The Issuer depends on information technology to manage critical business processes, including the running of its internet bank, as well as administrative functions. Extensive downtime of network servers, attacks by IT-viruses or other disruptions or failure of information technology systems are possible and could have a material adverse effect on the Issuer's operations and could cause transaction errors and loss of customers.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

### **1.1.29 Changes in legislation and accounting principles**

A number of legislations and regulations, taxes and rules, including applicable accounting principles, can affect the business conducted by the Group. New or amended legislations and regulations could call for unexpected costs or impose restrictions on the development of the business operations or otherwise affect earnings, which could have an adverse effect on the Issuer's business and results of business operations.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

### **1.1.30 Competitive landscape**

The Issuer has a number of competitors across different segments and markets. It is possible that these competitors will grow to be stronger in the future, for example by means of consolidation in the market. Thus, there is a risk that the Issuer will not be able to compete successfully against current as well as future competitors, which may have a negative effect on the Issuer's operations, earnings and financial position.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

## **1.2 Risks relating to the Bonds**

### **1.2.1 The Issuer's obligations under the Bonds are subordinated**

The Bonds constitute unsecured, deeply subordinated obligations of the Issuer. The rights of the Bondholders to payment will, in the event of the liquidation of the Issuer be subordinated in right of payment to the claims of, inter alia, (i) any secured creditors of the Issuer, (ii) depositors of the Issuer, (iii) any other unsubordinated creditors of the Issuer, and (iv) any subordinated creditors of the Issuer whose rights are expressed to rank in priority to the holders of the Bonds (including holders of any tier 2 capital, including the Issuer's SEK 300,000,000 tier 2 subordinated floating rate notes issued in 2019 and the Issuer's SEK 300,000,000 tier 2 subordinated floating rate notes issued in 2020).

No Bondholder who in the event of the liquidation or bankruptcy of the Issuer is indebted to the Issuer shall be entitled to exercise any right of set-off or counterclaim against moneys owed by the Issuer in respect of Bonds held by such Bondholder.

Although the Bonds may pay a higher rate of interest than comparable bonds which are not subordinated, or which are subordinated but not as deeply as the Bonds, there is a high risk that investors in the Bonds will lose all or some of their investment should the Issuer become insolvent or enter into insolvency proceedings.

Further, and as described in the risk factor “The Bank Recovery and Resolution Directive” above, there is a risk that the Bonds are written-down in a resolution scenario or at the point of non-viability of the Issuer.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be high.

### ***1.2.2 Interest payments on the Bonds may be cancelled by the Issuer***

Any payment of interest in respect of the Bonds shall be payable only out of the Issuer’s distributable items and (i) may be cancelled, at any time, in whole or in part, at the option of the Issuer in its sole discretion and notwithstanding that it has distributable items or that it may make any distributions pursuant to the applicable capital regulations, or (ii) will be mandatorily cancelled if and to the extent so required by the applicable capital regulations.

Any cancellation of interest (in whole or in part thereof) shall in no way limit or restrict the Issuer from making any payment of interest or equivalent payment or other distribution in respect of any instruments ranking senior or junior to the Bonds. In addition, the Issuer may without restriction use funds that could have been applied to make such cancelled payments to meet its other obligations as they become due.

As a result of the above, there is a risk that the payment of interest is cancelled. Following any cancellation of interest as described above, Bondholders shall have no right thereto or to receive additional interest or compensation. Furthermore, no cancellation of interest in accordance with the Terms and Conditions shall constitute a default in payment or otherwise under the Bonds or entitle Bondholders to take any action to cause the Issuer to be declared bankrupt or apply for the liquidation, winding-up or dissolution of the Issuer. Accordingly, the amount of any interest may be reduced to zero.

After each cancelled payment of interest, the Bondholder’s right to retrieve accrued interest payments after any such interest period shall cease and the Issuer will not have any continued obligation to pay such interest or interest on such payment of interest, regardless of whether payments of interest in respect of following interest periods are made, and such unpaid interest shall not be deemed to be “accumulated” or accrued for any purpose.

Any actual or anticipated cancellation of interest on the Bonds will likely have an adverse effect on the market price of the Bonds. In addition, as a result of the interest cancellation provisions of the Bonds, the market price of the Bonds is likely to be more volatile than the market prices of other debt securities on which interest accrues that is not subject to such cancellation and also more sensitive generally to adverse changes in the Issuer’s financial condition.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be medium.

### ***1.2.3 Loss absorption at the point of non-viability of the Issuer***

The Bondholders are subject to the risk that the Bonds may be required to absorb losses as a result of statutory powers conferred on resolution and competent authorities in Sweden (the National Debt Office and the Swedish FSA). As noted above in the risk factor “The Bank Recovery and Resolution Directive”, the powers provided to resolution and competent authorities in the BRRD include write-down/conversion powers to ensure that relevant capital instruments (such as Bonds) fully absorb losses at the point of non-viability of the issuing institution in order to allow it to continue as a going concern subject to appropriate restructuring and without entering resolution. As a result, the BRRD contemplates that resolution authorities have the power to require the permanent write-down of such capital instruments (which write-down may be in full) or the conversion of them into Common Equity Tier 1 Capital instruments at the point of non-viability and before any other bail-in or resolution tool can be used. Accordingly, the Bonds may be written down and the value of the nominal amount of the Bonds may be reduced to zero.

There is a risk that the application of any non-viability loss absorption measure results in the Bondholders losing some or all of their investment. Any such conversion to equity or write-down of all or part of an investor’s principal (including accrued but unpaid interest) shall not constitute an event of default and any affected Bondholders will have no further claims in respect of any amount so converted or written down. The exercise of any such power is inherently unpredictable and depends on a number of factors which are outside the Issuer’s control. Any such exercise, or any suggestion that the Bonds could be subject to such exercise, would therefore materially adversely affect the value of the Bonds.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be medium.

### ***1.2.4 Loss absorption following a Trigger Event***

If at any time the Common Equity Tier 1 Capital Ratio has fallen below 5.125 per cent., in the case of the Issuer, or 7.00 per cent., in the case of the Issuer Consolidated Situation, this constitutes a Trigger Event and the Total Nominal Amount of the Bonds shall be written down by an amount sufficient to restore the Common Equity Tier 1 Capital Ratio of the Issuer and/or the Issuer Consolidated Situation to at least 5.125 per cent. or 7.00 per cent., as applicable. The write down of the Bonds is likely to result in a holder of Bonds losing some or all of its investment.

The Issuer and/or the Swedish FSA may determine that a Trigger Event has occurred on more than one occasion and the reduced Nominal Amount of each Bond may be written down on more than one occasion. Further, during any period when the then Nominal Amount of a Bond is less than the initial Nominal Amount, interest will accrue on and the Bonds will be redeemed at the reduced Nominal Amount of the Bonds.

The Issuer’s and/or the Swedish FSA’s calculation of the Common Equity Tier 1 Capital Ratio of the Issuer, and therefore its determination of whether a Trigger Event has occurred, shall be binding on the Bondholders, who shall have no right to challenge the published figures detailing the Common Equity Tier 1 Capital Ratio of the Issuer.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be medium.

### **1.2.5 Substitution or variation of the Bonds**

Subject to clause 10.4 (*Early redemption, substitution or variation upon the occurrence of a Capital Disqualification Event or Tax*) of the Terms and Conditions and the prior written permission of the Swedish FSA, the Issuer may, at its option and without the permission or approval of the relevant Bondholders, elect to substitute or vary the terms of all (but not some only) outstanding Bonds for, or so that they become or remain, as applicable, Qualifying Securities if a Capital Disqualification Event or Tax Event occurs.

There is a risk that, due to the particular circumstances of each Bondholder, any Qualifying Security will be less favourable to a Bondholder in all respects or that a particular Bondholder would not make the same determination as the Issuer as to whether the terms of the relevant Qualifying Security are not materially less favourable to Bondholders than the terms of the relevant Bonds. The substitution or variation of the Bonds may thus lead to changes in the Bonds that have effects that are less favourable in the opinion of a Bondholder. The Issuer bears no responsibility towards the Bondholders for any adverse effects of such substitution or variation (including, without limitation, with respect to any adverse tax consequence suffered by any Bondholder). The degree to which the Bonds may be substituted or varied is uncertain and presents a significant risk to the return of the Bonds.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be low.

### **1.2.6 The price of the Bonds may be volatile**

The market price of the Bonds could be subject to significant fluctuations in response to actual or anticipated variations in the Issuer's operating results and those of its competitors, adverse business developments, changes to the regulatory environment in which the Issuer operates, changes in financial estimates by securities analysts and the actual or expected sale of a large number of Bonds, as well as other factors. In addition, in recent years the global financial markets have experienced significant price and volume fluctuations, which, if repeated in the future, could adversely affect the market price of the Bonds without regard to the Issuer's operating results, financial condition or prospects.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be low.

### **1.2.7 Credit risks**

If the Issuer's financial position deteriorates it is likely that the credit risk associated with the Bonds will increase as there would be an increased risk that the Issuer cannot fulfil its obligations under the Terms and Conditions. The Issuer's financial position is affected by numerous risk factors, some of which have been outlined herein. An increased credit risk could result in the market pricing the Bonds with a higher risk premium, which could adversely affect the value of the Bonds. Another aspect of the credit risk is that a deteriorated financial position could result in a lower credit worthiness, which could affect the Issuer's ability to refinance the Bonds, which in turn could adversely affect the Issuer's operations, result and financial position.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be low.

#### **1.2.8 *Risks associated with admission to trading and no active secondary market***

Pursuant to the Terms and Conditions, the Issuer shall use its best efforts to ensure that the Bonds are admitted to trading on Nasdaq Stockholm (or, if such admission to trading is not possible to obtain or maintain, admitted to trading on another Regulated Market) within 60 days from the Issue Date, but there is a risk that the Bonds are not approved for admission to trading. A failure to obtain such admission may have a negative impact on the market value of the Bonds. Even if such admission will occur, there is a risk that an active market for the Bonds will not evolve, or even if such would evolve that it will not last.

The nominal amount of the Bonds may not be indicative of their market value after being admitted for trading on a Regulated Market. In addition, following admission to trading of the Bonds, the liquidity and trading price of the Bonds may vary substantially as a result of numerous factors, including general market movements and irrespective of the Issuer's performance. Therefore, Bondholders may not be able to sell their Bonds easily (or at all) or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be medium.

#### **1.2.9 *Interest rate risks***

The value of the Bonds is dependent on several factors, one of the most significant over time being the level of market interest rates. Investments in the Bonds involve a risk that the market value of the Bonds could be adversely affected by changes in market interest rates.

The Company considers that the probability that the abovementioned risks materialise to be medium. If the risks would materialise, the Company considers the potential negative impact to be low.

#### **1.2.10 *Perpetual Bonds with no specified maturity date***

The Bonds are perpetual obligations of the Issuer with no fixed redemption or maturity date. The Issuer is under no obligation to redeem the Bonds at any time, except as set forth in the Terms and Conditions, and in any event, always subject to the prior approval of the Swedish SFA. The Bondholders will have no right to require the redemption of the Bonds except if a judgment is issued for the liquidation of the Issuer or if the Issuer is liquidated for any other reason.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be medium.

#### **1.2.11 *Exchange rate risks***

The Issuer will pay principal and interest on the Bonds in Swedish Kronor. This presents certain risks relating to currency conversions if a Bondholder's financial activities are denominated principally in a currency or currency unit other than Swedish Kronor (the "**Bondholder's Currency**").

Accordingly, a Bondholder is exposed to exchange rate risk if relevant exchange rates fluctuate significantly (including, but not limited to, fluctuations due to a devaluation of the Swedish Kronor or a revaluation of the Bondholder's Currency) or authorities with jurisdiction over the Bondholder's Currency impose or modify relevant exchange controls (if any), which could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be low.

#### ***1.2.12 The Issuer's interests may not be aligned with those of investors in the Bonds***

The Common Equity Tier 1 Capital Ratio and Distributable Items and any relevant maximum distributable amount stipulated in the applicable capital adequacy regulation, will depend in part on decisions made by the Issuer and the Group relating to its businesses and operations, as well as the management of its capital position. The Issuer will have no obligation to consider the interests of Bondholders in connection with their strategic decisions and capital management. The Issuer may decide not to raise capital at a time when it is feasible to do so, even if that would result in the occurrence of a Trigger Event. Bondholders will not have any claim against the Issuer relating to decisions that affect the capital position of the Issuer or the Group, regardless of whether they result in the occurrence of a Trigger Event. Such decisions could cause Bondholders to lose their investment in the Bonds.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be medium.

#### ***1.2.13 The Issuer may redeem the Bonds on the occurrence of a Capital Disqualification Event or Tax Event***

The Issuer may in certain circumstances, at its option, but in each case subject to obtaining the prior consent of the Swedish FSA, redeem the Bonds upon the occurrence of a Capital Disqualification Event or Tax Event at par together with accrued interest.

It should also be noted that the Issuer may redeem the Bonds as described above even if (i) the Total Nominal Amount of the relevant Bonds has been reduced by means of a writedown in accordance with the relevant Terms and Conditions and (ii) the principal amount of the relevant Bonds has not been fully reinstated to the initial nominal amount of the Bonds.

There is a risk that the Bondholders will not be able to reinvest the amounts received upon redemption at a rate that will provide the same rate of return as their investments in the Bonds.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be low.

#### ***1.2.14 The Terms and Conditions contains limited rights for the Bondholders or the Agent to accelerate the Bonds***

The Bonds shall constitute additional tier 1 capital of the Issuer. As such, the Terms and Conditions do not include any obligations or undertakings binding on the Issuer which if breached would give rise to a right of the Bondholders or the Agent to accelerate the Bonds. The Bondholders can only accelerate the Bonds if the Issuer is placed into liquidation. Hence, if the Issuer would default on any other obligation under the Terms and Conditions, for example if the Issuer would fail to ensure that the Bonds are admitted to trading on the corporate bond list of Nasdaq Stockholm within 60 days from the Issue Date, the Bondholders would not be able to accelerate the Bonds or otherwise request prepayment or redemption of the nominal amount of the Bonds.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be low.

#### ***1.2.15 The Issuer is not prohibited from issuing further debt, which may rank pari passu or with priority to Bonds***

The Bonds are unsecured obligations of the Issuer and there is no restriction in the amount or type of debt that the Issuer may issue or incur that ranks, pari passu or with priority to Bonds. Should the Issuer incur any such debt, there is a risk that the amount recoverable by the Bondholders in the event of the voluntary or involuntary liquidation, bankruptcy or resolution of the Issuer may be reduced.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be low.

#### ***1.2.16 The benchmark regulation***

The Bonds have a floating rate structure on 3-month STIBOR plus a margin. The process for determining STIBOR and other interest rate benchmarks (“**Benchmarks**”) is subject to a number of regulatory reforms, some of which have already been implemented and some of which are currently in progress. The most comprehensive initiative on this area is the Benchmarks Regulation (Regulation (EU) 2016/1011 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds) (the “**BMR**”) which came into force on 1 January 2018 and regulates the provision of Benchmarks, the contribution of input data to Benchmarks and the use of Benchmarks within the EU. Increased administrative requirements and the regulatory risks associated therewith could lead to participants no longer wanting to participate in the determination of Benchmarks, or that certain Benchmarks are discontinued. Should that be the case for STIBOR and e.g. the relevant fall-back solution evident from the Terms and Conditions should not work properly, it may lead to difficulties determining and calculating interest which in turn could lead to costly and time-consuming discussions in respect of the matter. The calculation of the fall-back solution evident from the Terms and Conditions could also be less favourable to the Bondholders than comparable fall-back solutions in the market. This could have a negative impact on the Bonds, the Issuer and/or the Bondholders.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be low.

### ***1.2.17 Bondholder representation and majority decisions by the Bondholders***

Under the Terms and Conditions, the Agent will represent each Bondholder in all matters relating to the Bonds. The Terms and Conditions contain provisions to the effect that a Bondholder is prohibited from taking actions on its own against the Issuer. To enable the Agent to represent the Bondholders in court, the Bondholders can submit a written power of attorney for legal proceedings. The failure of all Bondholders to submit such a power of attorney is likely to negatively impact the enforcement options available to the Agent on behalf of the Bondholder. Further, under the Terms and Conditions the Agent is entitled in some cases to make decisions and take measures that bind all relevant Bondholders without first obtaining the prior consent of the Bondholders.

Additionally, under the Terms and Conditions certain majorities of Bondholders are entitled to make decisions and take measures that bind all Bondholders, including those who vote in a manner contrary to the majority. Therefore, the actions of the majority and the Agent in such matters can impact the Bondholders' rights under the Finance Documents in a manner that is possibly undesirable for some of the Bondholders.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be low.

### ***1.2.18 Clearing and settlement in the CSD's account-based systems***

The Bonds are affiliated to CSD's account-based system, which means that no physical Bonds have been or will be issued. Clearing and settlement relating to the Bonds, as well as payment of interest and redemption of the principal amount of the Bonds, will be performed within CSD's account-based system. The investors are therefore dependent on the functionality of CSD's account-based system. If, due to any obstacle for CSD, the Issuer cannot make a payment or repayment, such payment or repayment may be postponed until the obstacle has been removed. Consequently, there is a risk that Bondholders receive payment under the Bonds later than expected.

The Company considers that the probability that the abovementioned risks materialise to be low. If the risks would materialise, the Company considers the potential negative impact to be low.

A write-down shall take place on a date selected by the Issuer in consultation with the Swedish FSA (the "**Write Down Date**") but no later than one month following the occurrence of the relevant Trigger Event unless, in accordance with the Capital Regulations, the Swedish FSA has agreed with the Issuer in writing that a write-down may occur after a longer period, in which case, on such date as agreed with the Swedish FSA.

A write-down shall be made as a reduction of the Total Nominal Amount and such write-down shall be considered to be an unconditional capital contribution (Sw. *ovillkorat kapitaltillskott*) and shall be made in consultation with the Swedish FSA and in accordance with the rules of the CSD.

The amount of the reduction of the Total Nominal Amount on the Write Down Date shall equal the amount of a write-down that would restore the Common Equity Tier 1 Capital Ratio to at least 5.125 per cent. in respect of the Issuer and at least 7.00 per cent. in respect of the Issuer Consolidated Situation at the point of such write-down, provided that the maximum reduction of the Total Nominal Amount shall be down to a Nominal Amount per Bond corresponding to SEK 0.01. Any such new bond issuance shall specify the relevant details of the manner in which such new bond issuance shall take effect and where the Bondholders can obtain copies of the new terms and conditions of the new bonds. Such new bonds shall be issued without any cost or charge to the Bondholders and shall be made in accordance with the rules of the CSD.

A reinstatement shall be made taking into account any preceding or imminent reinstatement of corresponding or similar loss absorbing instruments issued by the Issuer, including but not limited to Additional Tier 1 Capital instruments (other than the Bonds).

Any reinstatement of the Bonds shall be made on a *pro rata* basis.

For the avoidance of doubt, at no time may the reinstated Total Nominal Amount exceed the original Total Nominal Amount of the Bonds (if issued in full), being SEK 300,000,000.

Subject to Clause 10.5 (*Consent from the Swedish FSA*) of the Terms and Conditions, applicable law and giving notice in accordance with Clause 10.7 (*Notice of early redemption, substitution or variation*) of the Terms and Conditions, the Issuer may redeem all (but not some only) outstanding Bonds (a) any time within the Initial Call Period or (b) on any Interest Payment Date falling after the Initial Call Period.

The Bonds shall be redeemed at a price per Bond equal to the Nominal Amount together with accrued but unpaid Interest.

Early redemption, substitution or variation upon the occurrence of a Capital Disqualification Event or Tax Event:

- (a) redeem all (but not some only) outstanding Bonds on any Interest Payment Date; or
- (b) substitute or vary the terms of all (but not some only) of the outstanding Bonds without any requirement for the consent or approval of the Bondholders, so that they become or remain, as applicable, Qualifying Securities, provided that such substitution or variation does not itself give rise to any right of the Issuer to redeem, substitute or vary the terms of the Bonds in relation to the Qualifying Securities so substituted or varied.

“**Capital Disqualification Event**” means, at any time on or after the Issue Date, there is a change in the regulatory classification of the Bonds that would be likely to result in the exclusion of the

Bonds (in whole or in part) from the Additional Tier 1 Capital of the Issuer and/or the Issuer Consolidated Situation or reclassification of the Bonds (in whole or in part) as a lower quality form of regulatory capital, provided that:

- (a) the Swedish FSA considers such a change to be sufficiently certain; and
- (b) the Issuer demonstrates to the satisfaction of the Swedish FSA that the regulatory reclassification of the Bonds was not reasonably foreseeable at the Issue Date,

and provided that such exclusion is not a result of any applicable limitation on the amount of such Additional Tier 1 Capital contained in the Capital Regulations.

**“Qualifying Securities”** means securities issued directly by the Issuer following a substitution or variation of the Bonds that have terms not materially less favourable to investors, certified by the Issuer acting reasonably (having consulted with an independent investment bank or independent financial adviser of international standing), than the terms of the Bonds (immediately prior to the relevant substitution or variation), provided that they shall:

- (a) include a ranking at least equal to that of the Bonds;
- (b) have at least the same Interest Rate and the same Interest Payment Dates as those applying to the Bonds;
- (c) have the same redemption rights as the Bonds;
- (d) preserve any existing rights under the Bonds to any accrued interest which has not been paid but which has not been cancelled in respect of the period from (and including) the Interest Payment Date last preceding the date of the relevant substitution or variation of the Bonds;
- (e) are assigned (or maintain) the same or higher credit ratings as were assigned to the Bonds (if any) immediately prior to the relevant substitution or variation of the Bonds; and
- (f) comply with the then current requirements for Additional Tier 1 Capital contained in the Capital Regulations.

If the Bonds were admitted to trading on a Regulated Market immediately prior to the relevant substitution or variation, the Issuer shall use reasonable efforts to ensure that the relevant Qualifying Securities are admitted to trading on a Regulated Market within sixty (60) days from their issuance.

“**Tax Event**” means the occurrence of any amendment to, clarification of or change in the laws, treaties or regulations of Sweden affecting taxation (including any change in the interpretation by any court or authority entitled to do so) or any governmental action, on or after the Issue Date and which was not foreseeable at the Issue Date, resulting in that:

- (a) the Issuer is, or becomes, subject to a significant amount of additional taxes, duties or other governmental charges or civil liabilities with respect to the Bonds; or
- (a) the treatment of any of the Issuer’s items of income or expense with respect to the Bonds as reflected on the tax returns (including estimated returns) filed (or to be filed) by the Issuer will not be accepted by any tax authority, which subjects the Issuer to a significant amount of additional taxes, duties or governmental charges,

provided that the Issuer satisfies the Swedish FSA that such change in tax treatment of the Bonds is material and was not reasonably foreseeable as at the Issue Date.

**Listing:** The Issuer shall use its best efforts to ensure that the Bonds are admitted to trading on Nasdaq Stockholm (or, if such admission to trading is not possible to obtain or maintain, admitted to trading on another Regulated Market) within 60 days from the Issue Date.

**CSD:** The Bonds are connected with the account-based system of Euroclear Sweden, for the purpose of having the payment of interest and principal managed by Euroclear Sweden. The Bonds have been registered for the Bondholders on their respective securities accounts and no physical bonds have or will be issued.

## **Risk management organization and corporate governance**

### **Risk management organization**

Risk exposure is an integrated part of finance activities which means that the Group is exposed to credit, liquidity, business and operational risks. The operations therefore require an efficient governance and control environment with a clear organisation and assignment of responsibility, as well as efficient processes for each risk area.

The Company uses a control model in which responsibility for risk management is divided between the Board of Directors and three lines of defense: the line organization (first line of defense); risk control and compliance (second line of defense) and internal auditing (third line of defense).

The Board of Directors bears ultimate responsibility for limiting and following up on the Company's and for the Group's risks and also establishing the Group's capital adequacy target. The Board of Directors monitors risk trends on a continuous basis and sets and supervises risk appetite limits, which may not be exceeded.

The risk controller as well as compliance are independent functions within the Group and are responsible for, among other things, ongoing controls to ensure that risk exposure is kept within established limits and that the line organization controls operations in the manner intended. This also involves ensuring that changes in legislation and regulations are implemented and complied with in the organization.

In the third line of defense, the internal audit examines and evaluates risk control and governance processes in the Group, reporting directly to the Board of Directors of the Company. The function audits day-to-day operations in the line organization and the work performed by the second line of defense, and also acts as an advisor to business operations.

The Company has a comprehensive framework in order to ensure efficient governance and internal control of the business. The Board of Directors determines and has the ultimate responsibility for the framework, which is based on a clear division of responsibilities and authorities for the Company's functions and units. This framework of governance and control includes internal independent control functions in two different stages or levels, where the functions of risk control and compliance are the level next to the business units and other support functions. The level next thereto is the function for internal audit, which has the responsibility to evaluate and control the Company's business and support units as well as the two functions of control. The responsibility of these two levels of independent functions of control and audit and their respective way of reporting directly to the Board of Directors constitute the basis for ensuring that the control of the Company is not abused.

### **Corporate governance**

The company's shareholders exercise their influence through active participation in the decisions made at the shareholder meeting. In order to ensure that control over the Company is not abused, the Company follows the provisions of the Swedish Companies Act (2005: 551) and acts in line with the rules of procedure for the Board and the instructions for the CEO adopted by the Company. ### **Group structure**

The Group consists of the parent company, the Issuer, and approximately 57 directly or indirectly owned Swedish and foreign subsidiaries and/or associated companies. The Issuer conducts business through branches in Norway and Finland. All the companies in the Group are non-listed.

The parent company accounts for a significant part of the Group's revenues. The subsidiary Svea Inkasso AB and its subsidiaries are also contributing to a large part of the Group's revenue. The Company is to some extent financially dependent on its subsidiaries, including Svea Inkasso AB, since the Company's operations and earnings are affected by the subsidiaries' operations and earnings through the dividends that are provided. ## **5 Bonds in book-entry form**

5.1 The Bonds will be registered for the Bondholders on their respective Securities Accounts and no physical bonds will be issued. Accordingly, the Bonds will be registered in accordance with the Financial Instruments Accounts Act. Registration requests relating to the Bonds shall be directed to an Account Operator. The Debt Register shall constitute conclusive evidence of the persons who are Bondholders and their holdings of Bonds.

5.2 Those who according to assignment, Security, the provisions of the Swedish Children and Parents Code (Sw. *föräldrabalken (1949:381)*), conditions of will or deed of gift or otherwise have acquired a right to receive payments in respect of a Bond shall register their entitlements to receive payment in accordance with the Financial Instruments Accounts Act.

5.3 The Issuer and the Agent shall be entitled to obtain information from the Debt Register. For the purpose of carrying out any administrative procedure that arises out of the Finance Documents, the Issuing Agent shall be entitled to obtain information from the Debt Register.

5.4 The Issuer shall issue any necessary power of attorney to such persons employed by the Agent, as notified by the Agent, in order for such individuals to independently obtain

information directly from the Debt Register. The Issuer may not revoke any such power of attorney unless directed by the Agent or unless consent thereto is given by the Bondholders.

- 5.5 The Issuer and the Agent may use the information referred to in Clause 5.3 only for the purposes of carrying out their duties and exercising their rights in accordance with the Finance Documents and the Agency Agreement and shall not disclose such information to any Bondholder or third party unless necessary for such purposes.

## **6 Right to act on behalf of a Bondholder**

- 6.1 If any person other than a Bondholder (including the owner of a Bond, if such person is not the Bondholder) wishes to exercise any rights under the Finance Documents, it must obtain a power of attorney or other authorisation from the Bondholder or a successive, coherent chain of powers of attorney or authorisations starting with the Bondholder and authorising such person.
- 6.2 A Bondholder may issue one or several powers of attorney or other authorisations to third parties to represent it in relation to some or all of the Bonds held by it. Any such representative may act independently under the Finance Documents in relation to the Bonds for which such representative is entitled to represent the Bondholder.
- 6.3 The Agent shall only have to examine the face of a power of attorney or other authorisation that has been provided to it pursuant to Clause 6.2 and may assume that such document has been duly authorised, is valid, has not been revoked or superseded and that it is in full force and effect, unless otherwise is apparent from its face or the Agent has actual knowledge to the contrary.
- 6.4 These Terms and Conditions shall not affect the relationship between a Bondholder who is the nominee (Sw. *förvaltare*) with respect to a Bond and the owner of such Bond, and it is the responsibility of such nominee to observe and comply with any restrictions that may apply to it in this capacity.

## **7 Payments in respect of the Bonds**

- 7.1 Any payment or repayment under the Finance Documents shall be made to such person who is registered as a Bondholder on the Record Date prior to an Interest Payment Date or other relevant payment date, or to such other person who is registered with the CSD on such Record Date as being entitled to receive the relevant payment, repayment or repurchase amount.
- 7.2 Provided that a Bondholder has registered an income account (Sw. *avkastningskonto*) for the relevant Securities Account on the applicable Record Date, the CSD shall procure that principal, interest and other payments under the Bonds are deposited to such income account on the relevant payment date. If an income account has not been registered on the Record Date for the payment, no payment will be effected by the CSD to such Bondholder. The outstanding amount will instead be held by the Issuer until the person that was registered as a Bondholder on the relevant Record Date has made a valid request for such amount. Should the CSD, due to a delay on behalf of the Issuer or some other obstacle, not be able to effect payments as aforesaid, the Issuer shall procure that such

amounts are paid to the persons who are registered as Bondholders on the relevant Record Date as soon as possible after such obstacle has been removed.

- 7.3 If, due to any obstacle for the CSD, the Issuer cannot make a payment or repayment, such payment or repayment may be postponed until the obstacle has been removed. For the avoidance of doubt, such postponement shall in no event constitute an event of default.
- 7.4 If payment or repayment is made in accordance with this Clause 7, the Issuer shall be deemed to have fulfilled their obligation to pay, irrespective of whether such payment was made to a person not entitled to receive such amount.
- 7.5 The Issuer is not liable to gross-up any payments under the Finance Documents by virtue of any withholding tax (including but not limited to any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the “Code”) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, or any official interpretations thereof, or any law implementing an intergovernmental approach thereto), public levy or the similar.

## **8 Interest and Interest calculation**

### **8.1 Interest**

- 8.1.1 Each Bond carries Interest at the Interest Rate from (but excluding) the Issue Date up to (and including) the relevant Redemption Date.
- 8.1.2 Interest accrues during an Interest Period. Payment of Interest in respect of the Bonds shall be made to the Bondholders on each Interest Payment Date for the preceding Interest Period.
- 8.1.3 Interest shall be calculated on the basis of the actual number of days in the Interest Period in respect of which payment is being made divided by 360 (actual/360-days basis).
- 8.1.4 Under no circumstances shall any penalty (*Sw. dröjsmålsränta*) interest be payable by the Issuer in respect of the Bonds.

### **8.2 Interest cancellation**

- 8.2.1 Any payment of Interest in respect of the Bonds shall be payable only out of the Issuer’s Distributable Items and:
- (i) may be cancelled, at any time, in whole or in part, at the option of the Issuer in its sole discretion and notwithstanding that it has Distributable Items or that it may make any distributions pursuant to the Capital Regulation; or
  - (ii) will be mandatorily cancelled to the extent so required by the Capital Regulations, including the applicable criteria for Additional Tier 1 Capital instruments.

8.2.2 The Issuer shall give notice to the Bondholders in accordance with Clause 25 (*Notices and press releases*) of any such cancellation of a payment of Interest, which notice might be given after the date on which the relevant payment of Interest is scheduled to be made. Notwithstanding the foregoing, failure to give such notice shall not prejudice the right of the Issuer not to pay Interest as described above.

8.2.3 Following any cancellation of Interest as described above, the right of the Bondholders to receive accrued Interest in respect of any such Interest Period will terminate and the Issuer will have no further obligation to pay such Interest or to pay interest thereon, whether or not payments of Interest in respect of subsequent Interest Periods are made, and such unpaid Interest will not be deemed to have “accrued” or been earned for any purpose, nor will the non-payment of such Interest constitute an event of default or similar.

### **8.3 Calculation of Interest in case of write-down or reinstatement**

8.3.1 Subject to Clause 8.2 (*Interest cancellation*), in the event that a write-down of the Bonds occurs pursuant to Clause 9.1 (*Loss absorption upon a Trigger Event*) during an Interest Period, Interest will continue to accrue on the Nominal Amount (as adjusted).

8.3.2 Subject to Clause 8.2 (*Interest cancellation*), in the event that a reinstatement of the Bonds occurs pursuant to Clause 9.2 (*Reinstatement of the Bonds*), Interest shall begin to accrue on the reinstated Nominal Amount.

8.3.3 In connection with a write-down or write-up pursuant to Clause 9 (*Loss absorption and reinstatement*), the Issuer shall inform the CSD of the adjusted interest that shall be applied on the next Interest Payment Date, in order for the Bondholders to receive an amount of Interest equivalent to the Interest Rate on the Nominal Amount so written down or written up (as applicable).

## **9 Loss absorption and reinstatement**

### **9.1 Loss absorption upon a Trigger Event**

9.1.1 If at any time a Trigger Event occurs, the Issuer shall immediately notify the Swedish FSA, the Bondholders and the Agent in accordance with Clause 25 (*Notices and press releases*) and the Total Nominal Amount or the Issuer’s payment obligation under the Bonds shall be written down in accordance with this Clause 9.1 (*Loss absorption upon a Trigger Event*). If the Bonds are to be written down, the Issuer shall notify the Bondholders and the Agent in accordance with Clause 25 (*Notices and press releases*). A failure to give such notice shall in no event prejudice any write-down of the Bonds.

9.1.2 A write-down shall take place on a date selected by the Issuer in consultation with the Swedish FSA (the “**Write Down Date**”) but no later than one month following the occurrence of the relevant Trigger Event unless, in accordance with the Capital Regulations, the Swedish FSA has agreed with the Issuer in writing that a write-down may occur after a longer period, in which case, on such date as agreed with the Swedish FSA.

- 9.1.3 A write-down shall be made as a reduction of the Total Nominal Amount and such write-down shall be considered to be an unconditional capital contribution (Sw. *ovillkorat kapitaltillskott*) and shall be made in consultation with the Swedish FSA and in accordance with the rules of the CSD.
- 9.1.4 The amount of the reduction of the Total Nominal Amount on the Write Down Date shall equal the amount of a write-down that would restore the Common Equity Tier 1 Capital Ratio to at least 5.125 per cent. in respect of the Issuer and at least 7.00 per cent. in respect of the Issuer Consolidated Situation at the point of such write-down, provided that the maximum reduction of the Total Nominal Amount shall be down to a Nominal Amount per Bond corresponding to SEK 0.01. A write-down in accordance with this Clause 9.1 (*Loss absorption upon a Trigger Event*) shall be made taking into account any preceding or imminent write-down of corresponding or similar loss absorbing instruments issued by the Issuer or a member of the Issuer Consolidated Situation, including but not limited to Additional Tier 1 Capital instruments (other than the Bonds).
- 9.1.5 The Nominal Amount of each Bond shall, upon the write-down of the Total Nominal Amount described above, be written down on a *pro rata* basis.

## **9.2 Reinstatement of the Bonds**

- 9.2.1 Following a write-down of the Total Nominal Amount in accordance with Clause 9 (*Loss absorption and reinstatement*), the Issuer may, at its absolute discretion, reinstate the Bonds, subject to compliance with any maximum distribution limits set out the Capital Regulations.
- 9.2.2 Reinstatement shall be made by way of issuing new bonds to the relevant Bondholders that qualify as Additional Tier 1 Capital of the Issuer. Any such new bond issuance shall specify the relevant details of the manner in which such new bond issuance shall take effect and where the Bondholders can obtain copies of the new terms and conditions of the new bonds. Such new bonds shall be issued without any cost or charge to the Bondholders and shall be made in accordance with the rules of the CSD.
- 9.2.3 A reinstatement in accordance with this Clause 9.2 (*Reinstatement of the Bonds*) shall be made taking into account any preceding or imminent reinstatement of corresponding or similar loss absorbing instruments issued by the Issuer, including but not limited to Additional Tier 1 Capital instruments (other than the Bonds).
- 9.2.4 Any reinstatement of the Bonds shall be made on a *pro rata* basis.
- 9.2.5 For the avoidance of doubt, at no time may the reinstated Total Nominal Amount exceed the original Total Nominal Amount of the Bonds (if issued in full), being SEK 300,000,000.
- 9.2.6 If the Issuer decides to reinstate the Bonds, the Issuer shall notify the Bondholders and the Agent in accordance with Clause 25 (*Notices and press releases*) prior to such reinstatements becoming effective. A notice of reinstatements under this Clause 9.2.6 shall specify the date on which such reinstatements become effective.

## **10 Redemption and repurchase of the Bonds**

### **10.1 Perpetual Bonds**

The Bonds are perpetual obligations of the Issuer and have no fixed date for redemption. The Issuer may only redeem the Bonds at its discretion in the circumstances described in this Clause 10 (*Redemption and repurchase of the Bonds*). The Bonds are not redeemable at the option of the Bondholders at any time.

### **10.2 Early redemption at the option of the Issuer**

Subject to Clause 10.5 (*Consent from the Swedish FSA*), applicable law and giving notice in accordance with Clause 10.7 (*Notice of early redemption, substitution or variation*), the Issuer may redeem all (but not some only) outstanding Bonds (i) any time within the Initial Call Period or (ii) on any Interest Payment Date falling after the Initial Call Period.

### **10.3 Issuer's purchase of Bonds**

The Issuer or a Group Company may, subject to applicable laws and to Clause 10.5 (*Consent from the Swedish FSA*), at any time on or following the First Call Date and at any price purchase Bonds on the market or in any other way. Such Bonds purchased and held by the Issuer or the Group Company may at its discretion be retained or sold.

### **10.4 Early redemption, substitution or variation upon the occurrence of a Capital Disqualification Event or Tax Event**

Subject to Clause 10.5 (*Consent from the Swedish FSA*) and giving notice in accordance with Clause 10.7 (*Notice of early redemption, substitution or variation*), if a Capital Disqualification Event or Tax Event has occurred, the Issuer may:

- (a) redeem all (but not some only) outstanding Bonds on any Interest Payment Date; or
- (b) substitute or vary the terms of all (but not some only) of the outstanding Bonds without any requirement for the consent or approval of the Bondholders, so that they become or remain, as applicable, Qualifying Securities, provided that such substitution or variation does not itself give rise to any right of the Issuer to redeem, substitute or vary the terms of the Bonds in accordance with this Clause 10.4 (*Early redemption, substitution or variation upon the occurrence of a Capital Disqualification Event or Tax Event*) in relation to the Qualifying Securities so substituted or varied.

### **10.5 Consent from the Swedish FSA**

A Group Company, or any other company forming part of the consolidated situation which the Issuer reports to the Swedish FSA, may not redeem, purchase, substitute or adjust any outstanding Bonds without the prior written consent of the Swedish FSA and in accordance with the Capital Regulation. Any Bonds redeemed or purchased in accordance with this Clause 10.5, may be retained or sold by the relevant Group Company, if such

action has been approved by the Swedish FSA and is in compliance with the Capital Regulation.

## **10.6 Early redemption amount**

The Bonds shall be redeemed at a price per Bond equal to the Nominal Amount together with accrued but unpaid Interest.

## **10.7 Notice of early redemption, substitution or variation**

10.7.1 Any redemption, substitution or variation in accordance with Clauses 10.2 (*Early redemption at the option of the Issuer*) and 10.4 (*Early redemption, substitution or variation upon the occurrence of a Capital Disqualification Event or Tax Event*) shall be made by the Issuer giving not less than fifteen (15) Business Days' notice to the Bondholders and the Agent. Any notice of redemption shall state the Redemption Date and the relevant Record Date. Any such notice is irrevocable but may, subject to the Capital Regulations and approval of the Swedish FSA, at the Issuer's discretion contain one or more conditions precedent that shall be fulfilled prior to the Record Date. Upon expiry of such notice and the fulfilment of the conditions precedent (if any), the Issuer shall redeem the Bonds in full at the applicable amount on the specified Redemption Date.

10.7.2 Notwithstanding Clause 10.7.1, if a Trigger Event occurs following a notice given in accordance with Clause 10.7.1 but prior to the relevant redemption, substitution or variation of the Bonds, such notice shall have no effect and Clause 9.1 (*Loss absorption upon a Trigger Event*) shall apply, and, for the avoidance of doubt, no redemption, substitution or variation in accordance with this Clause 10 shall occur.

17.4.4 The Agent may, during the Written Procedure, provide information to the Issuer by way of updates whether or not quorum requirements have been met and about the eligible votes received by the Agent, including the portion consenting or not consenting to the proposal(s) or refraining from voting (as applicable).

- 18.1 The Issuer and the Agent (acting on behalf of the Bondholders) may agree in writing to amend and waive any provision in a Finance Document or any other document relating to the Bonds, provided that the Agent is satisfied that such amendment or waiver:

## **19 Replacement of Base Rate**

### **19.1 General**

- 19.1.1 Any determination or election to be made by an Independent Adviser, the Issuer or the Bondholders in accordance with the provisions of this Clause 19 shall at all times be made

by such Independent Adviser, the Issuer or the Bondholders (as applicable) acting in good faith, in a commercially reasonable manner and by reference to relevant market data.

- 19.1.2 If a Base Rate Event has occurred, this Clause 19 shall take precedent over the fallbacks set out in paragraph (b) to (d) of the definition of STIBOR.

## 19.2 Definitions

In this Clause 19:

“**Adjustment Spread**” means a spread (which may be positive, negative or zero) or a formula or methodology for calculating a spread, or a combination thereof to be applied to a Successor Base Rate and that is:

- (a) formally recommended by any Relevant Nominating Body in relation to the replacement of the Base Rate; or
- (b) if (a) is not applicable, the adjustment spread that the Independent Adviser determines is reasonable to use in order to eliminate, to the extent possible, any transfer of economic value from one party to another as a result of a replacement of the Base Rate and is customarily applied in comparable debt capital market transactions.

“**Base Rate Amendments**” has the meaning set forth in Clause 19.3.4.

“**Base Rate Event**” means one or several of the following circumstances:

- (a) the Base Rate (for the relevant Interest Period) has ceased to exist or ceased to be published for at least five (5) consecutive Business Days as a result of the Base Rate (for the relevant Interest Period) ceasing to be calculated or administered;
- (b) a public statement or publication of information by (i) the supervisor of the Base Rate Administrator or (ii) the Base Rate Administrator that the Base Rate Administrator ceases to provide the applicable Base Rate (for the relevant Interest Period) permanently or indefinitely and, at the time of the statement or publication, no successor administrator has been appointed or is expected to be appointed to continue to provide the Base Rate;
- (c) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator that the Base Rate (for the relevant Interest Period) is no longer representative of the underlying market which the Base Rate is intended to represent and the representativeness of the Base Rate will not be restored in the opinion of the supervisor of the Base Rate Administrator;
- (d) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator with the consequence that it is unlawful for the Issuer or the Issuing Agent to calculate any payments due to be made to any Bondholder using the applicable Base Rate (for the relevant Interest Period) or it has otherwise become prohibited to use the applicable Base Rate (for the relevant Interest Period);
- (e) a public statement or publication of information in each case by the bankruptcy trustee of the Base Rate Administrator or by the trustee under the bank recovery

and resolution framework (Sw. *krishanteringsregelverket*) containing the information referred to in (b) above; or

- (f) a Base Rate Event Announcement has been made and the announced Base Rate Event as set out in (b) to (e) above will occur within six (6) months.

“**Base Rate Event Announcement**” means a public statement or published information as set out in paragraph (b) to (e) of the definition of Base Rate Event that any event or circumstance specified therein will occur.

“**Independent Adviser**” means an independent financial institution or adviser of repute in the debt capital markets where the Base Rate is commonly used.

“**Relevant Nominating Body**” means, subject to applicable law, firstly any relevant supervisory authority, secondly any applicable central bank, or any working group or committee of any of them, or thirdly the Financial Stability Council (Sw. *Finansiella stabilitetsrådet*) or any part thereof.

“**Successor Base Rate**” means:

- (a) a screen or benchmark rate, including the methodology for calculating term structure and calculation methods in respect of debt instruments with similar interest rate terms as the Bonds, which is formally recommended as a successor to or replacement of the Base Rate by a Relevant Nominating Body; or
- (b) if there is no such rate as described in paragraph (a), such other rate as the Independent Adviser determines is most comparable to the Base Rate.

For the avoidance of doubt, in the event that a Successor Base Rate ceases to exist, this definition shall apply *mutatis mutandis* to such new Successor Base Rate.

### **19.3 Determination of Base Rate, Adjustment Spread and Base Rate Amendments**

19.3.1 Without prejudice to Clause 19.3.2, upon a Base Rate Event Announcement, the Issuer may, if it is possible to determine a Successor Base Rate at such point of time, at any time before the occurrence of the relevant Base Rate Event at the Issuer’s expense appoint an Independent Adviser to initiate the procedure to determine a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating and finally deciding the applicable Base Rate. For the avoidance of doubt, the Issuer will not be obliged to take any such actions until obliged to do so pursuant to Clause 19.3.2.

19.3.2 If a Base Rate Event has occurred, the Issuer shall use all commercially reasonable endeavours to, as soon as reasonably practicable and at the Issuer’s expense, appoint an Independent Adviser to initiate the procedure to determine, as soon as commercially reasonable, a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating, and finally deciding the applicable Base Rate.

19.3.3 If the Issuer fails to appoint an Independent Adviser in accordance with Clause 19.3.2, the Bondholders shall, if so decided at a Bondholders’ Meeting or by way of Written

Procedure, be entitled to appoint an Independent Adviser (at the Issuer's expense) for the purposes set forth in Clause 19.3.2. If the Issuer fails to carry out any other actions set forth in Clause 19.3 to 19.6, the Agent (acting on the instructions of the Bondholders) may to the extent necessary effectuate any Base Rate Amendments without the Issuer's cooperation.

19.3.4 The Independent Adviser shall also initiate the procedure to determine any technical, administrative or operational changes required to ensure the proper operation of a Successor Base Rate or to reflect the adoption of such Successor Base Rate in a manner substantially consistent with market practice ("**Base Rate Amendments**").

19.3.5 Provided that a Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments have been finally decided no later than prior to the relevant Quotation Day in relation to the next succeeding Interest Period, they shall become effective with effect from and including the commencement of the next succeeding Interest Period, always subject to any technical limitations of the CSD and any calculations methods applicable to such Successor Base Rate.

## **19.4 Interim measures**

19.4.1 If a Base Rate Event set out in any of the paragraphs (a) to (e) of the Base Rate Event definition has occurred but no Successor Base Rate and Adjustment Spread have been finally decided prior to the relevant Quotation Day in relation to the next succeeding Interest Period or if such Successor Base Rate and Adjustment Spread have been finally decided but due to technical limitations of the CSD, cannot be applied in relation to the relevant Quotation Day, the Interest Rate applicable to the next succeeding Interest Period shall be:

- (a) if the previous Base Rate is available, determined pursuant to the terms that would apply to the determination of the Base Rate as if no Base Rate Event had occurred; or
- (b) if the previous Base Rate is no longer available or cannot be used in accordance with applicable law or regulation, equal to the Interest Rate determined for the immediately preceding Interest Period.

19.4.2 For the avoidance of doubt, Clause 19.4.1 shall apply only to the relevant next succeeding Interest Period and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustments as provided in, this Clause 19. This will however not limit the application of Clause 19.4.1 for any subsequent Interest Periods, should all relevant actions provided in this Clause 19 have been taken, but without success.

## **19.5 Notices etc.**

Prior to the Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments become effective the Issuer shall promptly, following the final decision by the Independent Adviser of any Successor Base Rate, Adjustment Spread and any Base Rate Amendments, give notice thereof to the Agent, the Issuing Agent and the Bondholders by way of press release and the CSD. The notice shall also include information about the effective date of the amendments. If the Bonds are admitted to

trading on a stock exchange, the Issuer shall also give notice of the amendments to the relevant stock exchange.

## **19.6 Variation upon replacement of Base Rate**

- 19.6.1 No later than giving the Agent notice pursuant to Clause 19.5, the Issuer shall deliver to the Agent a certificate signed by the Independent Adviser and the CEO, CFO or any other duly authorised signatory of the Issuer (subject to Clause 19.3.3) confirming the relevant Successor Base Rate, the Adjustment Spread and any Base Rate Amendments, in each case as determined and decided in accordance with the provisions of this Clause 19. The Successor Base Rate the Adjustment Spread and any Base Rate Amendments (as applicable) specified in such certificate will, in the absence of manifest error or bad faith in any decision, be binding on the Issuer, the Agent, the Issuing Agent and the Bondholders.
- 19.6.2 Subject to receipt by the Agent of the certificate referred to in Clause 19.6.1, the Issuer and the Agent shall, at the request and expense of the Issuer, without the requirement for any consent or approval of the Bondholders, without undue delay effect such amendments to the Finance Documents as may be required by the Issuer in order to give effect to this Clause 19.
- 19.6.3 The Agent and the Issuing Agent shall always be entitled to consult with external experts prior to amendments are effected pursuant to this Clause 19. Neither the Agent nor the Issuing Agent shall be obliged to concur if in the reasonable opinion of the Agent or the Issuing Agent (as applicable), doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Agent or the Issuing Agent in the Finance Documents.

## **19.7 Limitation of liability for the Independent Adviser**

Any Independent Adviser appointed pursuant to Clause 19.3 shall not be liable whatsoever for damage or loss caused by any determination, action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its gross negligence or wilful misconduct. The Independent Adviser shall never be responsible for indirect or consequential loss.

## **20 The Agent**

### **20.1 Appointment of the Agent**

- 20.1.1 By subscribing for Bonds, each initial Bondholder appoints the Agent to act as its agent in all matters relating to the Bonds and the Finance Documents, and authorises the Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these Terms and Conditions) in any legal or arbitration proceedings relating to the Bonds held by such Bondholder, including the winding-up, dissolution, liquidation, company reorganisation (Sw. *företagsrekonstruktion*) or bankruptcy (Sw. *konkurs*) (or its equivalent in any other jurisdiction) of the Issuer and in relation to any mandatory exchange of the Bonds for other securities (including, for the

- 20.2.2 When acting pursuant to the Finance Documents, the Agent is always acting with binding effect on behalf of the Bondholders. The Agent is never acting as an advisor to the Bondholders or the Issuer. Any advice or opinion from the Agent does not bind the Bondholders or the Issuer.
- 20.2.3 When acting pursuant to the Finance Documents, the Agent shall carry out its duties with reasonable care and skill in a proficient and professional manner.
- 20.2.4 The Agent shall treat all Bondholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Bondholders as a group and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Finance Documents.
- 20.2.5 The Agent is always entitled to delegate its duties to other professional parties and to engage external experts when carrying out its duties as agent, without having to first obtain any consent from the Bondholders or the Issuer. - 20.2.10 The Agent shall ensure that it receives evidence satisfactory to it that Finance Documents which are required to be delivered to the Agent are duly authorised and executed (as applicable). The Issuer shall promptly upon request provide the Agent with such documents and evidence as the Agent reasonably considers necessary for the purpose of being able to comply with this Clause 20.2.10. Other than as set out above, the Agent shall neither be liable to the Issuer or the Bondholders for damage due to any documents and information delivered to the Agent not being accurate, correct and complete, unless it has actual knowledge to the contrary, nor be liable for the content, validity, perfection or enforceability of such documents.
- 20.2.11 Notwithstanding any other provision of the Finance Documents to the contrary, the Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any regulation.
- 20.2.12 If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions of the Bondholders, or taking any action at its own initiative, will not be covered by the Issuer, the Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate Security has been provided therefore) as it may reasonably require.
- 20.2.13 The Agent shall give a notice to the Bondholders:

- (b) if it refrains from acting for any reason described in Clause 20.2.12.

### **20.3 Liability for the Agent**

- 20.3.1 The Agent will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its negligence or wilful misconduct. The Agent shall never be responsible for indirect or consequential loss.
- 20.3.2 The Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts provided to the Agent or if the Agent has acted with reasonable care in a situation when the Agent considers that it is detrimental to the interests of the Bondholders to delay the action in order to first obtain instructions from the Bondholders.
- 20.3.3 The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by the Agent to the Bondholders, provided that the Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Agent for that purpose.
- 20.3.4 The Agent shall have no liability to the Issuer or the Bondholders for damage caused by the Agent acting in accordance with instructions of the Bondholders given in accordance with the Finance Documents.

The Issuer may, at a

Bondholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Bondholders that the Agent be dismissed and a new Agent appointed.

  - (b) the period pursuant to Clause 20.4.4 having lapsed.
- 20.4.7 Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the Bondholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent.
- 20.4.8 In the event that there is a change of the Agent in accordance with this Clause 20.4, the Issuer shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights, powers and obligation of the Agent and releasing the retiring Agent from its further obligations under the Finance Documents and the Agency Agreement. Unless the Issuer and the new Agent agree otherwise, the new Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

## **21 The Issuing Agent**

The replacing CSD must be authorised to professionally conduct clearing operations pursuant to the Central Securities Depository Regulation (Regulation (EU) No 909/2014) and be authorised as a central securities depository in accordance with the Financial Instruments Accounts Act.

Such steps may only be taken by the Agent.
- 23.2 Clause 23.1 shall not apply if the Agent has been instructed by the Bondholders in accordance with the Finance Documents to take certain actions but fails for any reason to take, or is unable to take (for any reason other than a failure by a Bondholder to provide documents in accordance with Clause 20.1.2), such actions within a reasonable period of time and such failure or inability is continuing. However, if the failure to take certain actions is caused by the non-payment of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or by any reason described in Clause 20.2.12, such failure must continue for at least forty (40) Business Days after notice pursuant to Clause 20.2.13 before a Bondholder may take any action referred to in Clause 23.1.
